

## General Information

**The website is always open for ordering, we close the week on Tuesday's by around 10 am for your shopping convenience. We go out to the farms on Wednesdays and we deliver every Thursday to your door, 52 weeks a year.**

**From the Farm to Your Door:** Not everything goes as smoothly as intended. Farmers tell us on Wednesday what they "think" they will have on the following week, we put it up on the store with every intention of delivering it to you. It is also why our all of our meats are frozen, we pick them up from the farms that way and delivery them to you frozen to ensure freshness. Frequently, there are times when we get to the farm and it is not available anymore. That's when we can make substitutions by searching for the product at another farm or artisans. We do our best to make adjustments based on the product you order, example would be if you order a certified organic product we will try to fine another organic to replace it. When this happens we will try to contact of you by phone or email, it's always a last minute decision for us. If necessary, we will cancel the order and credit your account for that item.

**Fees:** We do NOT have any membership fees, you order when you want, what you want and are not required to order every week.

- NO minimum order.
- Delivery fee, see below for the town-by-town fees.

**The Quality of the Products:** If you have any problem with any of the products we deliver, please contact us immediately and we will credit you or replace the item in question and contact the farm or artisan so they are aware of the issues you had with the product.

**Estimate Time of Delivery:** We will communicate with you via email on Wednesday afternoon about your delivery times. We give a one-hour time frame for your convenience.

If someone will NOT be home, please make arrangements to have a container available for your products. In heat or cold, you will need an insulated container/cooler with enough cooler packs to last the duration of your absences. Please leave it in a place that is easily visible to our drivers.

Please provide any information that will help us find your house, you can do this in the area provide on the website as you check out called "Special Instructions" :: Things to include would be, is the number visible from the road, the color or which side of the road it is located; it will make it easier for the driver. Also let us know if your street is easily located using a GPS, some roads are new and are not available.

**Tips are welcomed and appreciated by the drivers, but not required.**

They are proving a service much like the wait staff in a restaurant. They are paid a fair wage but they only work part-time, tips help them out. It is your decision to tip or not to tip.

**The Cooler Exchange Program** is the most convenient way to keep your order fresh until you get to it. For a **one-time fee of \$20**, we will deliver your order safely in a cold-packed cooler. On subsequent orders, simply leave the empty cooler out for our delivery person with our ice packs and/or bubble wrap intact, and we will exchange it with another filled with your farm fresh order. We can come back to pick it up if you email us and we are in the area.

Make sure you remove all of your food out of the cooler, check it against the invoice that is included with the order. Return the ice packs to the cooler, no need to refreeze as we come back with a new cooler packed with your order.

We have picked up coolers that still have food left in them, so make sure you take all your food out and give the cooler a quick wipe out. **If you purchased milk in glass bottles, please wash them out, the milk fats stick to the inside of the bottles and makes it very difficult for the farmers to get it out.** The easiest way to clean them is add a little vinegar to the water and shake the bottle vigorously or put in the dishwasher.

Please do not leave our coolers out in the rain or snow, we would rather come and pickup the cooler if it is not convenient for you to store it till your next order.

**Adjusted Balances Due:** If your order includes products that are priced per pound, (meats, some cheeses and some vegetables) you are charged initially for one pound, we will adjust the invoice according to the weight of those products once we return from the farm. As you know, it is not likely that a piece of meat or cheese can be cut to exactly a pound and vegetables don't grow to exactly one pound either. We will adjust the weight and it will be reflected in your final invoice which is emailed to you. We also leave a copy of the invoice with your order.

**Final Balance Due:** The final balance due will be placed on the credit card you used to purchase the original order. We do not recharge your card if it is less than \$10 in that case we ask that you pay with cash or a check to our driver upon delivery.

**Credit Due:** If you have a credit due from us, you will find it when you go to check out on your next order. Look at the top of the page as you are checking out, where the credit card choices are, you will need to first take the credit, there will be a "account credit" with a dollar amount available next to it. If you click on it, it will deduct that amount from the total due before you put your credit card information into the system.

### **Some tips to help us be even more efficient in serving you:**

1. If we leave a bag, cold packs, bubble wrap or a cooler with you, **please make sure that we pick it back up from you.** In addition to saving any unneeded expense of replacing these items, we will reuse them.
2. If you are using your own coolers, please check your order each week and ensure that there's adequate cooler space for us to make the delivery. **Nothing stresses out our stellar bunch of drivers more than when there's not enough cooler space available!!**
3. Leave cold packs or ice in your cooler, especially when ordering cheese, meat or fish so they remain cold/frozen until you get home.
4. Baldwin Brook Farm and Fish Family Farm offers milk in glass bottles, it is best if you wash or rinse these out. This is necessary in the hot months as they become rather stinky. There is a \$2 bottle deposit – when you return the bottles, we will credit your CTFE account.

### **A Few Tips for Ordering on the Website:**

- After you complete your order, you will get an immediate response via email that your order is being processed. If you don't, then the order did not go through. Go back and see if you left something out. There are several pages of information that you need to complete before you reach the page that says "Thank You for Your Order."
- If you don't process the order because you wanted to wait to add something, the cart will automatically empty in 23 hours. So, finish the order and if at a later point you think of something else you want to add, just drop us an email ([ctfe@me.com](mailto:ctfe@me.com)) and we will add it to your order for you.

**Delivery charges on next page...**

## **Delivery charges:**

Delivery charges are a must to cover the high cost of fuel, our time and vehicle maintenance. They allow us to deliver great local artisanal and farm fresh products at the lowest possible pricing. To be fair to all our valued customers, we have created a scalable delivery charge based on mileage from CTFE headquarters in East Haddam. If you do not see your town listed, it does not mean that we don't deliver there; we just have not had a request for delivery to that area yet. Call us and we will add it to the list.
